**BlueScope Steel Selects ISNworld for Contractor Management**  
ISN Expands Manufacturing Client Base

DALLAS, Texas (July 29, 2011) – ISN is pleased to announce BlueScope Steel has selected ISNworld to streamline and enhance the contractor Health, Safety, and Environmental management processes for their United States operations.

BlueScope Steel's North American operations include a diverse array of entities that consist of North Star BlueScope Steel, Steelscape, and BlueScope Buildings. North Star BlueScope Steel, located in Delta, Ohio, is a 50-50 joint venture between BlueScope Steel and North Star Steel, a subsidiary of Cargill Inc. Established in 1995, the company's facilities are amongst the most recent in North America, and use cutting edge steelmaking technologies and processes. Steelscape manufactures metallic-coated and painted steel coils for the construction market in the United States and Canada. BlueScope Buildings is globally the largest provider of pre-engineered building components. The company designs, produces and delivers custom pre-engineered building components to meet design requirements.

"We look forward to working with BlueScope Steel's U.S. operations," said Kim Davis, Team Lead, ISN Manufacturing Team. "We are confident their commitment to safety will contribute to a long lasting and successful partnership."

"Safety is our highest value," said Melissa Dotson, EHS Manager, BlueScope Steel North America. "ISN will help reinforce our values within our company's culture while improving the overall safety of our facilities."

**About ISN**

ISN provides an online contractor management database, ISNworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 33,000 contractors and 210 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors' self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit [www.isn.com](http://www.isn.com).
