EXCO Resources Selects ISNetworld for Vendor Management

ISN expands in the U.S. with a new Upstream Owner Client

DALLAS (December 11, 2009) — ISNetworld announced that EXCO Resources, Inc. has chosen ISNetworld to be its primary tool to enhance its vendor management processes.

EXCO Resources is an independent energy company engaged in the acquisition, exploitation and development of oil and natural gas properties. Their assets are characterized by long reserve lines, a multi-year inventory of development drilling, high drilling rate success and a concentration in natural gas. EXCO's operations are focused in key North American oil and natural gas areas including Appalachia, East Texas, North Louisiana, Mid-Continent, Permian, and the Rockies.

"The goal of EXCO resources safety and health process is the prevention of accidents and injuries, the preservation of equipment and capital, and the achievement of safe working practices," said Rodney Cox, Vice President Environmental, Health and Safety for EXCO Resources. "In order to accomplish these goals, we have enlisted the assistance of a third party organization, ISNetworld, to help manage critical vendor and supplier information."

"We are excited to welcome EXCO Resources as our newest Upstream customer," said Brittany Boynton, Senior Team Lead for ISNetworld's Upstream Team. "Their commitment to ensuring worker safety sets the stage for a successful implementation of ISNetworld for EXCO Resources and their vendors."

About ISNetworld

ISNetworld provides an online contractor/supplier management database designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 22,000 contractors/suppliers and 130 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors'/suppliers' self-reported information, incorporating a level of due diligence to the process. Contractor/Suppliers also use the system to manage internal training and recording keeping requirements. For more information, visit www.isnetworld.com.
