ISNetworld Formed to Serve Industrial America

Houston, TX, November 1, 2000 – ISN Software Corporation (ISN) announced today that that it has completed the acquisition of certain assets, including ISNetworld, from the AllenTate Commercial Software division of EarthCare Company.

ISN's mission is to increase safety, reduce liability and enhance security within America's strategic industrial assets through the use of third party data and the Internet to facilitate contractor compliance with industrial facility owner requirements.

Bill Addy, President of ISN, stated, "We believe that our new company can harmonize the flow of third party compliance data among the contractors who service and the owner/operators who operate America's strategic industrial assets. 2001 will be a year of product and customer development for us. We expect our first sales in late 2001 with the real push starting in 2002."

ISN Software Corporation, through its flagship ISNetworld product, automates the relationship between contractors and their owner/operator customers in America's most capital-intensive industrial sectors. ISNetworld utilizes third party data wherever possible to create an added level of compliance record management and reporting integrity. For more information, visit www.isnetworld.com.
