ISNetworld Announces Several New Data Providers

Dallas, TX, November 12, 2002 – ISN Software Corporation (ISN) announced today that a number of new organizations now make their data available to industry through ISNetworld. These organizations include:

- The American Petroleum Institute (API)
- NACE International – The Corrosion Society (NACE)
- T.D. Williamson, Inc. (TDW)
- Clock Spring Company, L.P. (ClockSpring)
- Operator Qualification Solutions Group (OQSG)
- EIM Controls, Inc. (EIM)
- Midwest Energy Association (MEA)
- Solar Turbines

These organizations, together with NCCER and NCMS, now mean that 10 of the premier industrial training, assessment and credentialing organizations in America make their data available to industry through ISNetworld.

Joe Eastin, Executive Vice President of ISN, said, “Our customers are increasingly looking to ISNetworld for a broader range of compliance information. These additional data providers are each leaders in their field. With them, ISNetworld enhances its current offerings and will create new functionality in 2003 that capitalizes on these new data providers’ areas of specialization.”

ISN Software Corporation, through its flagship ISNetworld product, automates the relationship between contractors and their owner/operator customers in America’s most capital-intensive industrial sectors. ISNetworld utilizes third party data wherever possible to create an added level of compliance record management and reporting integrity. For more information, visit www.isnetworld.com.
