ISN Expands with London Office

DALLAS, Texas (January 26, 2011) — ISN is pleased to announce the addition of a London office.

In 2010, ISN partnered with their first two Owner Clients in the United Kingdom. With this growth, ISN has established an office in London to better serve and communicate with Owner Clients and Contractors in the UK.

President of ISN Joseph Eastin states, “This is an important accomplishment for ISNetworld as we further our efforts in expanding into the global marketplace. Our team has been building a strong reputation and presence in the European community for years, and now we have a permanent presence to serve our existing and new customers.”

Senior Vice President Brian Callahan states, “We look forward to furthering our relationships with Owner Clients and contractors in the United Kingdom and we are excited to dedicate additional resources to these endeavors.”

“Establishing a London office is an integral step in continuing our global growth,” adds Dag Yemenu, Director of Global RAVS. “It also provides us with an opportunity to help improve workplace health, safety and compliance in the UK and Europe in general.”

About ISN

ISN provides an online contractor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 30,000 contractors and 180 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors' self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isnetworld.com.
