OQ Partners and eWebOQ Become ISNetworld Data Partner

Dallas, TX, February 1, 2006 – ISN Software Corporation (ISN) announced today that OQ Partners and eWebOQ (eWebOQ) has become an ISNetworld data partner. eWebOQ is an industry leading online assessment tool designed to help pipeline operators and contractors comply with the Department of Transportation Operator Qualification Rule (49 CFR Parts 195 and 192). ISNetworld is the leading online database serving operators and contractors in the oil, gas and petrochemical industries

Joe Eastin, Executive Vice President of ISN, said, “eWebOQ is a well known Operator Qualification assessment tool. eWebOQ has a particularly strong following among natural gas pipelines. The inclusion of eWebOQ assessment and evaluation results in ISNetworld completes an important step towards aligning natural gas and liquids pipeline interests.”

Brian Callahan, Director of ISN’s Pipeline Business Unit, added, “We are excited to have eWebOQ as our most recent OQ Qualifications data partner. With this announcement, eWebOQ joins an industry driven group of ISNetworld data partners who collaborate to achieve a common goal for the entire pipeline transportation network.”

ISN Software Corporation, through its flagship ISNetworld product, automates the relationship between contractors and their owner/operator customers in America’s most capital-intensive industrial sectors. ISNetworld utilizes third party data wherever possible to create an added level of compliance record management and reporting integrity. For more information, visit www.isnsoftware.com.
