API 570 Now Available in ISNetworld

Dallas, TX, April 25, 2005 – ISN Software Corporation (ISN) announced today that American Petroleum Institute (API) 570 certifications are now available in ISNetworld.

Brian Callahan, a Director of Business Development for ISN, said, “API 570 (Piping Inspector Certification) is increasingly accepted by pipeline operators in support of individual qualification under the Department of Transportation Operator Qualification Rule (49 CFR Parts 195 and 192). API 570 joins API 653 (Aboveground Storage Tank Inspector Certification) in assisting individuals maintain portable credentials in ISNetworld. This move helps make implementation of the OQ rule easier and less costly for industry.”

Joe Eastin, Executive Vice President of ISN, added, “API is a well respected organization in our country and throughout the world. API has been a great partner for ISN. Our relationship spans three years in regards to data sharing. We appreciate their support and look forward to continuing to serve industry together.”

ISN Software Corporation, through its flagship ISNetworld product, automates the relationship between contractors and their owner/operator customers in America’s most capital-intensive industrial sectors. ISNetworld utilizes third party data wherever possible to create an added level of compliance record management and reporting integrity. For more information, visit www.isnetworld.com.
