To Whom It May Concern:

Bill Wright Petroleum Installations Pty Ltd has over 60 years of experience in the Petroleum Installation business. We pride ourselves on reliable service, providing a safe working environment and the best quality workmanship available.

In November 2009, Bill Wright Petroleum Installations Pty Ltd joined ISNetworld to meet the requirement of one of our Owner Clients. Since that time, we have input our health and safety information into one central location and been given the opportunity to make sure our health and safety standards are in line with current state regulations. Looking ahead, we are excited about using ISNetworld to gain more exposure within our respective industry. We also feel that the value their service provides can only improve our business going forward.

Below are a few examples of how our ISN Subscription has provided value to our company:

1. **Accessibility.** Our information is stored online and easily accessible to not only our company but to all subscribing Owner Clients.
2. **Support.** ISNetworld's knowledgeable customer service team is available to assist with any of our questions in a professional, attentive and timely manner.
3. **RAVS (Review and Verification Services).** RAVS has helped us to ensure that our safety programs are up to date with industry standards and the standards of our Owner Clients.

We are certain that as ISNetworld continues to expand through Australia and more Owner Clients begin using the system, the value of our subscription will only increase.

Sincerely,

Bill Wright  
Director
