Dallas, Texas 75204

Dear Valued Client:

Safety is an integral part of Bonnyville Welding Ltd.'s operations. It is Bonnyville Welding Ltd.'s commitment to protect our workers, sub-contractors, clients, property, the general public and the environment.

Bonnyville Welding Ltd. has utilized ISNetworld since 2008. ISNetworld's knowledgeable staff has assisted our Health & Safety Division in becoming compliant with Occupational Health & Safety Code, as well as keeping up to date with changes in Provincial and Federal Regulations. The MSQ and RAVS verification process within ISNetworld allows our company to continuously update and improve the content in both our Health & Safety Manual and Safety Program. Specifically, tools like Training Manger assists us in our commitment to provide highly qualified and trained workers to our Owner Clients on a daily basis.

Bonnyville Welding Ltd. Safety Division has made great strides to achieve a WCB rate much lower than the industry standard rate. Our company ranks in the top 3 out of 196 companies doing similar work. We partially accredit this position within our industry to ISNetworld's continued due diligence and quarterly improvements to their system.

Bonnyville Welding Ltd. recommends the service ISNetworld provides and feels that it is a great tool for companies that recognize the importance of safety within their corporate structure.

Respectfully,

NCSC Kevin Koolahan
Health & Safety Manager
