To Whom It May Concern:

EDG Inc. is a full-service, multi-discipline, international consulting firm serving the oil & gas and industrial markets since 1982. We have firmly established ourselves as a leader in providing cost-effective engineering, design, and project management services for offshore as well as onshore production facilities.

EDG's business goal is to efficiently and professionally provide to our customers high quality and competitively priced products and services that meet their needs and expectations, in a safe working environment. EDG strives for excellence through our Character by Design program and the twelve Unifying Principles that we share.

EDG Unifying Principle #10 states that, "**Safety is a primary consideration in all of our work.** The safety of our customers, ourselves, and the general public shall always take precedence over other objectives." To this end, EDG became a member of ISNetworld (ISN) in 2003.

EDG has enjoyed its relationship with ISN and has found the ISN system to be well designed, user friendly, and fully supported by a very responsive, capable, and professional staff. Some of the ways in which EDG benefits from its ISN membership are as follows:

- Receiving guidelines and assistance for creating/enhancing EDG Safety Programs to be in compliance with Owner Client requirements as well as OSHA regulations, saving EDG time trying to determine the applicable OSHA requirements for each program
- Ease in uploading HSE statistics and documents such as insurance certificates, safety awards, & company brochures for viewing by Owner Clients
- The ability to store and manage EDG employees' HSE Training records in the ISN HSE Training Manager Database which allows for creating reports and notifications of expired training courses
- The ability to create ISN Photo ID cards for EDG employees that can be scanned by Owner Clients to verify that training requirements have been met

ISNetworld has helped to streamline EDG's HSE processes and has allowed for efficient and timely communication of pertinent HSE information to Owner Clients.

Sincerely,

A handwritten signature in blue ink, appearing to read 'John L. McComas', is written over a large, light blue circular scribble.

John L. McComas
HSE Manager
