To Whom It May Concern:

I recently had the opportunity to attend an ISNetworld Users Group Meeting in my hometown of Grande Prairie and benefited significantly from attending this session. I would like to express my appreciation to ISNetworld for taking the time and effort to travel up to northern Alberta to host this meeting. During the meeting, ISNetworld logged in to EnCana's account and showed me an example of how an Owner Client views contractors. This made me realize the importance of thoroughly completing all of my information.

At that meeting, I also came to the realization that ISNetworld is really about the bigger picture. It is not just about the paper side of the program or meeting our Owner Clients' requirements. It is about changing attitudes and fostering a safer culture within our operations. It is about caring enough and making sure that we and our workmates work safe and go home to our friends and families at the end of the day.

I am a firm believer in ISNetworld and am delighted anytime I hear that one of my Owner Clients is switching to the system. By providing exceptional customer support along with a thorough database to manage my information, ISNetworld makes my job easier in the end.

Sincerely,

A handwritten signature in cursive script that reads "Rochelle Killins".
