RE: ISNetworld

To Whom It May Concern:

Integrated Electronic Technologies, Inc. is one of the largest and most experienced full service security and communication system integrators in the Southeast. We are uniquely qualified to design, install and maintain all types of security systems and communications systems (including fiber optic cabling and enterprise level wireless microwave links). We have a staff of more than 80 full-time employees that are highly qualified and well trained in the latest security technology, including advanced CCTV systems with intelligent video analytic capabilities. We are also experts in communication infrastructure, including network cabling, fiber optic cabling and the latest industrial grade wireless solutions.

Our full time staff of designers, engineers, technicians and support personnel is factory trained, authorized, certified and experienced in a wide variety of products and services, including CCTV Systems, Alarm Systems, Gate Operators, Microwave Radio Communications, Fiber Optic Cabling, Telephone and Data Cabling, and computer networking. We have full time employees in a variety of categories from tower climbers to computer technicians.

Safety is a key element at Integrated Electronic Technologies, Inc. and ISNetworld has provided us a simple, clear and concise way of organizing and compacting multifaceted data. Our material is very organized and easily accessible to Owner Clients and to our own personnel. Since implementation, we have been able to administer and streamline our safety program in a professional and efficient manner. ISNetworld has forced our company to answer and analyze some crucial data that we would not otherwise have been exposed to. This factor alone helps us improve our Safety Policy and will place us in a position to show potential new customers that we consider safety a priority, and organization a necessity.

Overall, we are extremely pleased with the end result of ISNetworld's verification of safety, procurement, quality and regulatory information. It was a complicated but worthwhile challenge to our entire operation. We look forward to utilizing more of its many features and benefits. We highly recommend ISNetworld for all companies who have similar goals and objectives.

Sincerely,

  
Jeffrey S. Walker  
New Business Development Manager
