To whom it may concern:

Trutec Contracting is an industrial insulating company that is based out of Grande Cache, Alberta. We are an ambitious company that is able to meet our Owner Client's needs, while following safety and quality standards. We feel that the integrity of our company is not only based on our work performance but also on our standard of safety excellence. In September of 2008, we joined ISNetworld at the request of an Owner Client and to date; we are now connected with six Owner Clients. ISNetworld makes the prequalification process easy and allows us to provide all required documentation directly to our Owner Clients.

ISNetworld is an effective and convenient tool, which allows us to efficiently house our health and safety information. Their program is very straight forward and user friendly. In April, I attended a user group hosted by ISNetworld on behalf of Encana, which was held in Grande Cache. The ISNetworld Customer Service team was extremely helpful. It is impressive to see that they were willing to travel such a far distance to service their customers.

The service that ISNetworld provides ensures that companies like us are compliant with Owner Client requirements as well as provincial regulations.

Regards,

Angela & Blair Schultz
