To Whom it may Concern,

ISNetworld - Services and Support Testimonial

Building Solutions (Aust) Pty Ltd is a multi-award winning commercial construction company that have completed a range of projects including tilt-up showroom/warehouses, tri-level mixed use commercial/residential premises, primary schools, retail outlets, extensive fit-outs and health facilities.

We commenced as a contractor subscriber and member of ISNetworld in 2010 and we have found that the ISNetworld program has assisted us to improve our Safety Management Plan and to maintain our exemplary safety record. We have found it to be convenient to have the requirements of a myriad of interested parties together in one straight-forward location.

ISNetworld have been forthcoming in their approach and we have been very grateful for their suggestions and assistance. We have especially appreciated the personalised Helpdesk service with informative and friendly advisors that truly seek to understand where ISNetworld can benefit their subscribers and members.

We would be happy to answer any queries about the use of the system and the services offered by ISNetworld.

Yours faithfully,

David Guille, FCA
Executive Chairman
