

Action Required

January 20, 2012

Dear Contractor,

We are pleased to announce that Samson [see red notice below] has recently established a business relationship with ISN (www.isnetworld.com). Effective immediately, ISNetworld will begin serving as Samson's primary contractor/supplier information management system. As a result of this action, contractors/suppliers and their subcontractors performing services for Samson are required to become subscribers to ISNetworld. If your company is a current subscriber to ISNetworld, there is no additional fee; however, please ensure your company has completed the items below.

There is a nominal fee for this service. Samson believes the benefits to both parties will far exceed any associated costs. A more comprehensive list of contractor/supplier benefits and subscription quick start guide are attached from ISN.

Your company's ISNetworld subscription will provide Samson access to the following required information:

1. **Company Profile** – Populate your company profile in ISNetworld to include company contact information, office locations, types of work/industry classifications, geography served, etc. This will provide Samson and other Owner Clients with your company's most current contact information at any time.
2. **HSE Questionnaire Management** – ISNetworld contains the Management System Questionnaire (MSQ) which will be utilized to gather your company's HSE data. The MSQ will replace all previous Samson questionnaires sent to your company.
3. **Document Submittal** – Samson will use ISNetworld to track and verify your company's Insurance Certificates, OSHA Forms, EMR Letters and Contracts/Agreements. During your company's subscription setup, ISN will explain how to submit these documents within your company's subscription and make them available online to Samson.
4. **Review and Verification** – ISN RAVS will review your company's written health and safety program for conformance with regulatory and/or Samson's standards. Your company will be required to submit copies of your company's written health and safety program to ISN RAVS. Detailed instructions will be communicated during your company's subscription setup. ISN RAVS will also verify your company's OSHA and EMR statistics and training documentation.
5. **DOT OQ Program Coordination** – If your company is impacted by the U.S. Department of Transportation (DOT) Operator Qualification (OQ) regulation requirements for contractor employees, Samson will begin to use ISNetworld to monitor your company's OQ records.
6. **Incident and Hour Tracking** – Samson will use ISNetworld to monitor your company's project specific hours and incidents pertaining to work performed on Samson jobsites. ISN will explain how to submit this information within your company's ISNetworld subscription during the initial ISNetworld training.

In order to be considered by Samson during the contractor/supplier selection process, your company's subscription must be in place and all required data must be posted **by March 1, 2012**. For further details about ISNetworld, **please contact the ISN Customer Service Team at (214) 303-4900 or (800) 976-1303 or visit their website at www.isnetworld.com.**

Samson

Samson
Two West 2nd Street
Tulsa, OK 74103

Your company's cooperation and participation in bringing this cost effective technology solution to our business relationship is appreciated. Samson and ISN representatives will schedule Users Group Meetings and Help Desks throughout the year. All contractors/suppliers who have subscribed to ISNetworld for Samson will receive details of dates/locations of these meetings.

Sincerely,

DJ Ponville
Executive Vice President of Operations
Samson

- Samson recently split into two separate groups of companies which all contain "Samson" as part of their name.
- This letter does NOT apply to the Samson companies that are conducting oil and gas operations **only** in the gulf coast region of Texas and Louisiana.
- The Samson companies operating in the gulf coast area may have recently mailed you a request to sign a new Master Service Agreement to cover operations in those areas; please do not confuse this current letter with those separate requests for new Master Service Agreements.
- In the future, your company may receive notification from Samson companies operating in the gulf coast area regarding ISN, but for now they are only requiring that you sign a new and separate Master Service Agreement.
