

March 4, 2010

Dear Contractor,

We are pleased to announce Nucor Steel Darlington Division has recently established a business relationship with ISNetworld (www.isnetworld.com). Effective immediately, ISNetworld will begin serving as Nucor's primary contractor information management system. As a result of this action, contractors and their subcontractors performing services for Nucor Steel Darlington will be required to become a subscriber to ISNetworld. If your company is a current subscriber to ISNetworld, there is no additional fee; however, please ensure your company has completed the items below.

There is a nominal fee for this service. Nucor Steel Darlington believes the benefits to both parties will far exceed any associated costs. A more comprehensive list of contractor benefits is attached from ISNetworld.

Your company's ISNetworld subscription will provide Nucor Steel Darlington access to the following required information:

1. **Company Profile** – Populate your company's Dashboard in ISNetworld to include company contact information, office locations, work types performed, geography served, etc. This will provide Nucor Steel Darlington and other Owner Clients with your company's most current contact information at any time.
2. **EH&S Questionnaire Management** – ISNetworld contains the Management System Questionnaire (MSQ) which will be utilized to gather your company's EH&S data. The MSQ will replace all previous Nucor Steel Darlington questionnaires sent to your company.
3. **Document Submittal** – Nucor will use ISNetworld to track and verify your company's *Insurance Certificates, Annual Contractor Agreement, Drug Test Program/Procedure, OSHA Forms and EMR Letters*. During your company's subscription set up, ISNetworld will explain how to submit these documents within your company's subscription and make them available online to Nucor Steel Darlington.
4. **Review and Verification** – ISNetworld RAVS will review your company's written health and safety program for compliance with regulatory and/or Nucor's standards. Your company will be required to submit to ISNetworld RAVS copies of your company's written health and safety program. Detailed instructions will be communicated during your company's subscription set up. ISNetworld RAVS will also verify your company's OSHA and EMR statistics.

In order to be considered by Nucor Steel Darlington during the contractor services selection process, your company's subscription must be in place and all required data must be posted **by April 30, 2010**. For further details about ISNetworld, **please contact the ISNetworld Customer Service Team at (214) 303-4900 or (800) 976-1303 or visit their website at www.isnetworld.com**.

Sincerely,

Andy Munson
Maintenance Manager
Nucor Steel Darlington
