ISN Reaches 20,000 Contractor Clients

DALLAS (October 19, 2009)—ISNetworld announced today that the company now has over 20,000 contractor subscribers. ISN is the resource for connecting organizations around the world with safe, reliable contractors and suppliers.

ISN connects contractors and suppliers around the globe to streamline the safety, procurement and compliance data management process. The ISN Review and Verification Services (RAVS) team reviews and verifies contractor and supplier self-reported information, ensuring it meets industry, regulatory and Owner Client standards.

“Reaching 20,000 contractors is a significant achievement. Our success is rooted in meeting our clients’ needs and the commitment and creativity of our employees,” said Brian Callahan, vice president. “We are honored to work with and provide services to the best owner clients and contractor and suppliers in the world.”

“Today, ISN has achieved a major milestone in improving global standardization for those men and women driving safe and compliant work places. None of this would have been possible without the dedication of the industries we work with, the customers and our devoted employees,” said Joseph Eastin, president. “We thank everyone that has helped shape ISN.”

About ISNetworld

ISNetworld provides an online contractor/supplier management database designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 20,000 contractors/suppliers and 130 Owner Clients. Through its Review and Verification Services (RAVS), ISN’s subject matter experts review and verify contractors’/suppliers’ self-reported information, incorporating a level of due diligence to the process. Contractor/suppliers also use the system to manage internal training and record keeping requirements. For more information, visit www.isnetworld.com.
