## **Agrium Selects ISNetwork for Contractor Management**

*ISN expands with a Mining/Fertilizer Owner Client*

DALLAS, Texas (October 30, 2009) – ISNetwork announced Agrium has chosen ISNetwork to be its primary tool for contractor management. ISN will work with the Calgary-based company to standardize and improve controls within its contractor management processes and provide tools for the company to hire the best-qualified contractors.

As a major retailer of agricultural products and services in North and South America, Agrium produces and markets all three primary groups of agricultural nutrients: nitrogen, phosphate and potash, as well as controlled-release fertilizers and micronutrients. Agrium is the largest direct-to-grower agricultural retailer and the premier supplier of specialty fertilizers in the United States.

“We are excited to have Agrium to join PotashCorp and Mosaic as ISN’s newest Owner Client in the agricultural/fertilizer arena,” said Adrienne Turner, Director of New Business, Canada. “ISN will assist Agrium with standardization and enhanced due diligence across North America.”

### **About ISNetwork**

ISNetwork provides an online contractor/supplier management database designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 20,000 contractors/suppliers and 130 Owner Clients. Through its Review and Verification Services (RAVS), ISN’s subject matter experts review and verify contractors’/suppliers’ self-reported information, incorporating a level of due diligence to the process. Contractor/Suppliers also use the system to manage internal training and recording keeping requirements. For more information, visit [www.isnetwork.com](http://www.isnetwork.com).
