## Appleton Papers Selects ISN for Vendor Management

### *ISN Expands in the U.S. Pulp and Paper Industry*

DALLAS (December 31, 2009)—ISN announced that Appleton's Technical Papers Division has selected ISNetworld as its primary tool for vendor management. The implementation will utilize multiple facets including the Management System Questionnaire (MSQ) and Review and Verification Services (RAVS) for safety programs and insurance certificates.

Appleton is the world's largest producer of carbonless paper and the only producer of the NCR PAPER\* brand carbonless paper. Carbonless paper is used to make multipart business forms such as invoices and purchase orders. Additionally, Appleton is North America's leading producer of thermal media. Appleton's thermal products are used for point-of-sale receipts and coupons; entertainment and transportation tickets; lottery and gaming tickets; engineering, medical and industrial charts; tags for airline baggage and retail applications; and labels for shipping, warehousing, medical and clean room applications. Appleton Papers has operations in three states: Ohio, Pennsylvania and Wisconsin.

"We are pleased to welcome Appleton Papers as our newest client within the Pulp and Paper industry," said Brandi Surine, Senior Manager of ISN's Manufacturing Team. "Appleton's commitment and initiative to advance their culture that protects and promotes health and safety of individuals working at their facilities is outstanding."

ISN Vice President, Brian Callahan, added, "With the addition of Appleton Papers there is an increase in value to the current ISNetworld vendor subscribers in the Pulp and Paper industry. We are excited to see the Pulp and Paper industry continue its focus on safety and we look forward to working with Appleton Papers."

#### About ISNetworld

ISNetworld provides an online contractor/supplier management database designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 22,000 contractors/suppliers and 130 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors'/suppliers' self-reported information, incorporating a level of due diligence to the process. Contractor/Suppliers also use the system to manage internal training and recording keeping requirements. For more information, visit [www.isnetworld.com](http://www.isnetworld.com).
