CenterPoint Energy Selects ISNetworld for Vendor Management

ISN Adds another Distribution Owner Client

DALLAS, Texas (May 13, 2010)—ISN is pleased to announce that CenterPoint Energy has selected ISNetworld as their primary vendor management tool. ISNetworld will collect and verify CenterPoint's vendors' information, ensuring that requirements are met, and will connect CenterPoint with safe, reliable vendors.

CenterPoint Energy is the United States' third largest combined electricity and gas utility company with gas and electric operations in six states. Additionally, CenterPoint Energy has an interstate pipeline and provides competitive natural gas sales in the eastern United States.

"CenterPoint Energy values their employees, vendors, and community. We are proud to welcome CenterPoint Energy and are enthusiastic about their commitment to safety," said Brian Callahan, ISN Senior Vice President.

ISN Midstream Team Lead, Jennifer Buckley, added, "With CenterPoint Energy's implementation of ISNetworld, many vendors will see the value of their ISNetworld subscription increase. We are excited to see the utility and power generation industry's continual dedication to the improvement of safety, and are looking forward to a successful implementation with CenterPoint Energy."

About ISN

ISN provides an online vendor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 24,500 vendors and 145 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify vendors' self-reported information, incorporating a level of due diligence to the process. Vendors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isnetworld.com.
