ISNetworld Adds Equipment Tracker Tool

Feature Allows Vendors to Efficiently Monitor Equipment Maintenance and Inspections

DALLAS, Texas (April 7, 2010)— ISN is pleased to announce the release of the newly developed Equipment Tracker tool, now available within ISNetworld. This feature allows vendors to monitor various critical factors surrounding the use, maintenance and tracking of their equipment.

This ISNetworld functionality was originally developed at the request of our vendors. “As we receive feedback from our vendors, we strive to develop products that are relevant to our customers’ changing needs,” notes Belinda Field, director of Contractor Operations. “We continue to develop value-added tools in ISNetworld. We are proud to announce Equipment Tracker as one of the newest benefits released especially for vendors.”

Equipment Tracker gives vendors the ability to:

- Catalog equipment
- Track equipment usage
- Schedule and manage maintenance and inspections
- Record historical data on equipment maintenance and inspections
- Share equipment records with Owner Clients
- Create reports

Julie Polk, director of QA/QC, believes that “our vendors operate in industries that demand equipment integrity and availability.” She understands how “having a system to track required maintenance and inspections will assist them in ensuring full operability, enabling our vendors to achieve their business objectives.”

About ISNetworld

ISNetworld provides an online vendor management database designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 24,000 vendors and 140 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify vendors' self-reported information, incorporating a level of due diligence to the process. Vendors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isnetworld.com.
