jeastin@isnetworld.com**Irving Oil Selects ISNetworld for Contractor Management***ISN Adds another Canadian Owner Client*

DALLAS (August 24, 2009) – ISNetworld announced Irving Oil has chosen ISNetworld to be its primary tool for contractor management. ISN will work with the New Brunswick-based company to standardize and improve controls within its contractor management processes and provide tools for the company to hire the best-qualified contractors.

This engagement with Irving Oil expands ISN's presence in eastern Canada and reinforces the company's overall footprint in Canada and Canadian refining, in particular. ISN entered the Canadian marketplace in 2006 and now provides services to more than 6,500 Canadian customers.

"We're excited to be working with Irving Oil. The company was looking for ways to standardize its contractor management and compliance processes and our tools fit their current and future needs," said Adrienne Turner, ISNetworld Canada Director. "We can adapt our product to meet their specific needs and provide Irving Oil with the efficiencies and timely reporting they want to drive compliance with contractors. It's efficient for them and increases their due diligence."

Irving Oil operates Canada's largest refinery and serves wholesale, commercial and retail customers in Eastern Canada, Quebec and New England.

About ISNetworld

ISNetworld provides an online contractor/supplier management database designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 20,000 contractors/suppliers and 130 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors'/suppliers' self-reported information, incorporating a level of due diligence to the process. Contractor/Suppliers also use the system to manage internal training and recording keeping requirements. For more information, visit www.isnetworld.com.
