### Jones Lang LaSalle Names ISNetworld Contractor Management for 30 Pfizer Facilities Nationwide

DALLAS (June 2, 2009) – ISNetworld today announced it has been chosen by Jones Lang LaSalle to assist in managing the contractors working on behalf of 30 Pfizer facilities throughout the U.S. ISNetworld will manage contractor and vendor data to allow Jones Lang LaSalle to prequalify vendors and manage the data in one, centralized process.

ISNetworld's services will help Jones Lang LaSalle and their client, Pfizer, in managing, tracking and reporting for multiple facilities across the country. According to Rory Callaghan, ISNetworld BioPharma and Facilities Management Team Lead, "ISNetworld's online database will reduce the current lengthy, tactical process allowing Jones Lang LaSalle employees to be freed to do what they were hired to do – be in the field making sure contractors are performing their services and safely."

#### ISNetworld Enters Facilities Management Arena

"It's exciting to know Jones Lang LaSalle sees the power of our services, online software and underlying database and the benefits each will bring to their property management process," added Brian Callahan, Vice President. "We believe this is just the beginning of a long-term relationship."
