Nucor Corporation Selects ISNetworld for Contractor Management

Dallas, Texas, December 15, 2008 – ISNetworld (ISN) announced today that Nucor Steel has chosen ISN as their primary tool to enhance their contractor management process.

While being dedicated to safety and the environment, Nucor has several major industry-changing accomplishments under its belt, such as building the world's first thin-slab cast mill and being the largest recycler of steel in America. With operating facilities in the U.S. and Canada, Nucor manufactures steel products which include: carbon and alloy steel; steel joists and joist girders; steel deck; fabricated concrete reinforcing steel; cold finished steel; steel fasteners; metal building systems; light gauge steel framing; steel grating and expanded metal; and wire and wire mesh.

ISN President Joe Eastin commented, "With such an extensive history of dedication to safety and the environment, we could not be more pleased to have Nucor join our client base. As safety and health are our key concerns, we value companies that take pride in their efforts to maintain a safe and healthy work environment for their employees and contractors, and Nucor is an excellent candidate for this very reason."

Brian Callahan, ISN Vice President, added, "We are excited to implement ISNetworld with Nucor and to see growth of Owner Clients and contractors from the steel industry choose ISNetworld for contractor management."

About ISNetworld

ISNetworld provides an online Contractor management database designed to meet internal and governmental health, safety, and environmental requirements. ISNetworld Review and Verification Services (RAVS) validate contractor information. ISNetworld has standardized health and safety communication and provides a method for subscribers to house documents, measure, compare and benchmark health and safety statistics, and provides a method of evaluation and communication between companies and their contractors. Contractors also use the system to manage training and record keeping requirements. For more information, visit www.isnetworld.com.
