Schlumberger Joins ISNetworld as First General Contractor

Dallas, TX, November 15, 2003 – ISN Software Corporation (ISN) announced today that Schlumberger has joined with ISNetworld as the first General Contractor (GC) subscriber. The GC subscription is a new type of ISNetworld subscription developed to meet the needs of larger contractors that utilize many sub-contractors.

Joe Eastin, Executive Vice President of ISN, said, “In our discussions with larger contractors, they told us that they face compliance record management and reporting challenges with the sub-contractors they utilize on major jobs for Owners. In response, we created the GC subscription to meet their compliance record-keeping requirements, including gathering sub-contractor Health & Safety information using the Standardized Contractor Questionnaire – Verified (SCQ-V).”

Julie Polk, National Account Manager of ISN, said, “Schlumberger was already a Contractor/Supplier (C/S) ISNetworld subscriber. We are delighted that they are our now our first GC subscriber. We look forward to expanding the capability of our GC functionality and welcome other major contractors to become GC subscribers and work with us to enhance GC functionality.”

ISN Software Corporation, through its flagship ISNetworld product, automates the relationship between contractors and their owner/operator customers in America’s most capital-intensive industrial sectors. ISNetworld utilizes third party data wherever possible to create an added level of compliance record management and reporting integrity. For more information, visit www.isnsoftware.com.
