ISNetworld Expands Into Canada

Dallas, TX, August 1, 2006 – ISN Software Corporation (ISN) announced today that it has significantly expanded its presence in Canada.

Bill Addy, President of ISN, said, “For many years, ISN has provided services to Canadian contractors who work for producers and operators based in the United States. Today, we are proud to announce that several Canadian based producers and operators have joined with ISN to streamline data management between Canadian operators, producers and contractors.”

Joe Eastin, Executive Vice President of ISN, added, “We welcome the Canadian operations of Nexen COG, Hunt Oil Company Canada, Chevron and Enbridge to ISN and ISNetworld. In addition, a number of Canada’s finest health and safety professionals have joined with ISN to adapt ISNetworld to meet Canadian-specific requirements. These Canadian professionals are providing local user support in a variety of areas. Almost 100 operators and over 5,000 contractors across North America depend on ISN and ISNetworld. We are investing heavily in Canada to maintain our reputation for the highest quality data management service available to industry. We are excited to begin implementations with other Canadian producers in the very near future.”

ISN Software Corporation, through its flagship ISNetworld product, automates the relationship between contractors and their owner/operator/producer customers in North America’s most capital-intensive industrial sectors. ISNetworld utilizes third party data wherever possible to create an added level of compliance record management and reporting integrity. For more information, visit www.isnsoftware.com.
