Ishrat Named Vice President of Product Development

Dallas, TX, January 2, 2007 – ISN Software Corporation (ISN) announced today that Saks Ishrat has been named Vice President of Product Development. Mr. Ishrat has been with ISN since its inception in 2000.

Joseph Eastin, President of ISN, said, “Saks Ishrat has lead our software and database development efforts since the company was founded. His expertise has helped pilot the company through three software transitions as well as three complete server upgrades across two cities. Today, Saks and our development team contribute significantly to the success of our company. Each and every day, they delight our team and customers as they create innovative methods to access, view and manage the hundreds of millions of ISNworld records that industry depends upon.”

ISN Software Corporation, through its flagship ISNworld product, automates the relationship between contractors and their owner/operator customers in North America’s most capital-intensive industrial sectors. ISNworld utilizes third party data wherever possible to create an added level of compliance record management and reporting integrity. For more information, visit www.isnsoftware.com.
