CSNetwork to Launch on January 1, 2004

Dallas, TX, October 10, 2003 – ISN Software Corporation (ISN) announced today that it would launch CSNetwork on January 1, 2004. CSNetwork has been developed to address compliance record-keeping requirements of commercial establishments and the contractors that serve them.

Bill Addy, President of ISN, added, “ISNetwork is demonstrating that affordable compliance record-keeping can strengthen the ties and confidence between industrial contractors and their operator customers. CSNetwork is a service extension that brings similar benefits to commercial operators and the contractors who serve them. As with ISNetwork, third party compliance data and direct data linkages to compliance data providers will be an important underpinning of CSNetwork.”

Joe Eastin, Executive Vice President of ISN, said, “Our meetings with industry leaders and experts lead us to believe that our launch timing for CSNetwork is good. We are actively searching for the right industry experience to join the ISN team and accelerate progress. We hope to have a terrific success story to tell a year from now.”

ISN Software Corporation, through its flagship ISNetwork product, automates the relationship between contractors and their owner/operator customers in America’s most capital-intensive industrial sectors. ISNetwork utilizes third party data wherever possible to create an added level of compliance record management and reporting integrity. For more information, visit www.isnsoftware.com.
