Schering-Plough Selects ISNetworld for Contractor Management

Dallas, Texas, March 18, 2009 - ISNetworld announced today that Schering-Plough has selected ISNetworld as its primary tool for enhancing their contractor management processes.

As an innovative health care company, Schering-Plough is committed to developing new, science-based medicines and treatments that will improve the health and well-being of patients around the globe. These products and procedures are researched and developed for patients and physicians, as well as the care of animals by veterinarians and farmers. Recently, Schering-Plough has become a global leader in women's health and fertility treatments and has been recognized as one of the world's largest animal health organizations. With a mission to deliver high quality performance to clients while remaining in compliance with laws and regulations, Schering-Plough is dedicated to the long term success of the company and of the health of the world's population.

ISNetworld BioPharma and Facility Management Team Lead, Rory Callaghan, stated, "We are excited to be working with Schering-Plough, a top healthcare company with multiple locations worldwide. Their commitment to safety will not only help Schering-Plough, but will also help raise the bar throughout the BioPharma industry."

Brian Callahan, Vice President of ISNetworld, added, "ISNetworld values companies such as Schering-Plough that emphasize the importance of following governmental and safety regulations in order to produce new science-based medicines and procedures with the health and safety of their consumers and clients in mind. We are proud to have Schering-Plough on board as one of our newest Owner Clients and hope other BioPharma companies in the industry will be soon to follow."

About ISNetworld

ISNetworld provides an online Contractor management database designed to meet internal and governmental health, safety, and environmental requirements. ISNetworld Review and Verification Services (RAVS) validate contractor information. ISNetworld has standardized health and safety communication and provides a method for subscribers to house documents, measure, compare and benchmark health and safety statistics, and provides a method of evaluation and communication between companies and their contractors. Contractors also use the system to manage training and record keeping requirements. For more information, visit www.isnetworld.com.
