Texas Petrochemicals Selects ISNetworld for Contractor Management

DALLAS, Texas (September 28, 2009) — ISNetworld announced that Texas Petrochemicals has chosen ISNetworld to be its primary tool to enhance its contractor management processes.

Texas Petrochemicals makes high-purity products that are the chemical building blocks for synthetic rubber, nylon, adhesives, catalysts and additives that go into high-performance polymers. Texas Petrochemicals has the largest butadiene and butane-1 extraction capacity in North America. The company operates manufacturing facilities in the Houston Ship Channel, Baytown and Port Neches, Texas, as well as a terminal in Lake Charles, Louisiana.

"We are excited to welcome Texas Petrochemicals to ISNetworld as the newest Chemical Owner Client," said Bonney Hodges, the Senior Lead for ISNetworld's Downstream Team. "This is a growing industry for ISNetworld and Texas Petrochemicals is a great company to have onboard. We look forward to being a part of their continued commitment to safety."

About ISNetworld

ISNetworld provides an online contractor/supplier management database designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 20,000 contractors/suppliers and 130 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors'/suppliers' self-reported information, incorporating a level of due diligence to the process. Contractor/Suppliers also use the system to manage internal training and recording keeping requirements. For more information, visit www.isnetworld.com.
