

ISNetworld
3001 Knox Street, Suite 200
Dallas, Texas 75205

To Whom It May Concern:

Southland Safety, LLC is a safety consulting company that provides comprehensive Health and Safety support and service to our clients, including a variety of services—Safety Program Development, Professional On-site Safety Personnel, Safety Training, Drug Testing, Incident Investigation and more. In our line of work, it is imperative that we keep our clients up to speed with industry regulations. Southland Safety, LLC consults for many ISNetworld subscribed companies, assisting them with improving their Health and Safety compliance for their Owner Clients.

ISNetworld has saved our company countless man hours and thousands of dollars with its innovative functionality. One of ISNetworld's tools that I have found especially helpful is their SmartLog feature. SmartLog allows us to track our client's incidents with ease and allows us to easily print OSHA 300A and 300 Logs.

ISNetworld's functionality allows me to fill out just one online questionnaire, the SCQ-V, for each of my clients, in order for them to be compliant with all of their Owner Clients that utilize ISNetworld. ISNetworld's system has made tracking our client's information so much easier. Please feel free to contact me at (903)657-8669 or by email at awatts@southlandsafety.com if you have any questions about my experience with ISNetworld.

Sincerely,

Ashlee Watts
