ISN Hosts 10.0 Regional Workshops Throughout Canada and Australia

DALLAS, Texas (December 14, 2011) — Throughout November and December, ISN hosted 12 regional ISN 10.0 workshop meetings throughout Australia and Canada.

Approximately 1,300 attendees, including Owner Clients, contractors and suppliers from a variety of industries, learned about ISN 10.0 and exchanged best practices.

Owner Client representatives discussed their contractor management process and the benefits of utilizing ISNetworld.

“These regional workshops provided an excellent forum for Q&A between contractors, Owner Clients and ISN” said Canada Director, Adrienne Turner. “We received positive feedback on these regional workshops, and the preview of ISN 10.0, from the attendees.”

The ISN Team provided an introduction and in-depth review of ISN 10.0, discussed best practices, reviewed frequently asked questions and provided an analysis on ISNetworld contractor statistics and trends.

“We greatly appreciate our customers’ efforts to attend these meetings” said Australia Team Lead, Jenny Buckley. “Not only is it our goal to provide our customers with a better understanding of ISNetworld, but an opportunity to network with their peers and exchange industry best practices.”

The ISN Help Desk was available throughout the workshop and provided individual assistance. Contractors also had the opportunity to meet one-on-one with their Owner Clients.

About ISN

ISN provides an online contractor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 37,000 contractors and 230 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors' self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isn.com.
