### ISN Selected by EQT Corporation to Manage Contractor Safety, Compliance

DALLAS (June 6, 2013) – ISN has been selected to partner with EQT Corporation, one of the largest natural gas producers in the Appalachian region, to manage its contractor safety pre-qualification process. EQT spokeswoman Linda Robertson says the shift in contractor management systems will affect primarily production and midstream contractors.

“Safety is a core value for EQT, so our belief is that when a contractor/supplier is a member of ISNworld, they are and will be more inclined to keep their records updated, an important indicator of their commitment to safety as core value, as well,” Robertson said.

ISN’s online contractor management database, ISNworld, will allow EQT to streamline the collection, verification and maintenance of health, safety, quality, procurement and other information, leading to increased safety standards for the contractor and at the jobsite.

“Our mutual dedication to contractor safety makes EQT and ISN natural partners,” said Lincoln King, ISN Upstream Team Lead. “EQT’s high safety standards are impressive, and we look forward to helping them maintain those standards as they grow their operations.”

#### About ISN

ISN provides an online contractor management database, ISNworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 48,000 contractors and 310 Owner Clients. ISN’s subject matter experts review and verify this information to assess the accuracy, relevance and timeliness of the data. Connecting Owner Clients with safe, reliable and sustainable contractors and suppliers around the globe allows these organizations to use ISN as an integral part of their management systems.
