ISNetworld Proudly Sponsored IOSH 2012 Health and Safety Conference

LONDON, United Kingdom (15 March 2012) — ISNetworld is pleased to announce that it has sponsored the 2012 Institute of Occupational Safety and Health (IOSH) conference held on March 6 and 7 at the Manchester Central conference centre. The premier IOSH 2012 conference and exhibition was well-attended by more than 2,000 visitors who came to support the conference theme: 'Health and Safety: Changing Perceptions.'

As a proud sponsor and exhibitor, ISNetworld (www.isnetworld.co.uk), the global leader in contractor and supplier management, took part in a number of events at this conference. ISNetworld staff members also showcased its innovative products and services currently used by more than 240 owner organisations around the globe for effectively managing the safety and compliance of their contractors and suppliers.

"As the biggest professional, global health and safety body, IOSH is an excellent organisation we look forward to continue partnering with in the future," commented Dag Yemenu, ISNetworld UK Director. "The IOSH annual conference is a rewarding learning and networking opportunity for professions in the field."

The IOSH 2012 conference and exhibition hosted more than 60 expert speakers, 30 sessions and five conference tracks. Following the theme, ISNetworld hosted the Working Smarter track which addressed challenges the health and safety profession faces in developing a workable and cost-effective approach to assessing workplace risk.

"The IOSH 2012 conference track topics were probably the most well organised and relevant that we have seen in this ever-changing economy," stated Richard Cerenzio, ISNetworld Senior Manager, Review and Verification Services. "Those in attendance benefitted greatly."

About ISN

ISN provides an online contractor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 39,000 contractors and 240 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors' self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isn.com.
