ISN Expands with New York Office

DALLAS, Texas (January 3, 2012)—ISN is pleased to announce the addition of a New York office.

Since 2001, ISN has served Owner Clients and contractor company customers in New York, New Jersey and the surrounding areas. Today, ISN has over 230 Owner Clients and more than 37,000 contractor company customers. ISN's current client base in the Northeast United States and Canada comprises over 45 of these Owner Clients and 3,000 of the contractor company customers.

President of ISN, Joe Eastin, commented, "New York and the Northeast represent many industries including petrochemical, healthcare, technology and manufacturing. The addition of a regional ISN office will allow our team more opportunity to meet and interact with current and future Owner Clients. Our team will also focus on meeting with and gathering feedback from contractor company customers in the area to further address their needs."

"ISN's current Northeast Owner Clients are continually working to improve safety and efficiency within their organizations and industries," stated Brian Callahan, ISN Senior Vice President. "We are dedicated to assisting them in this endeavor and look for our regional office to allow us to grow our presence throughout the Northeast United States and Canada"

About ISN

ISN provides an online contractor management database, ISNworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 37,000 contractors and 230 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors' self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isn.com.
