ISN Sponsors ASSE Foundation Scholarship

DALLAS (June 6, 2012)—In front of more than 2,000 safety professionals, at the American Society of Safety Engineers' (ASSE) SAFETY 2012 conference, ISN was recognized for its contribution to the ASSE scholarship fund.

Founded in 1911, the ASSE is the oldest professional safety organization in the United States. Representing more than 34,000 safety, health and environmental (SH&E) professionals, ASSE members work across all industries around the world protecting people, improving business and safeguarding the environment.

The ASSE Foundation, the charitable arm of ASSE, awards scholarships annually to provide assistance to students pursuing a degree in the occupational safety, health and environmental field. These scholarships are funded by corporations, ASSE Regions and Chapters, members and individuals.

"At ISN, we recognize the importance of supporting education in the safety, health and environmental profession and have funded ASSE scholarships for the past three years," said Brent Ross, CSP, ISN Review and Verification Services Health & Safety Manager. "It is rewarding to assist these students as they further themselves scholastically so they may contribute to the industry upon graduation."

Eleven students attending universities in the American Society of Safety Engineers' Region III, which includes Arkansas, Oklahoma and Texas, are recipients of ASSE Foundation 2012 scholarships.

About ISN

ISN provides an online contractor management database, ISNworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 42,000 contractors and 250 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors' self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isn.com.
