OGE Energy Corp. Selects ISN for Contractor Management

ISN Expands Utilities Client Base

DALLAS (May 16, 2012) – ISN is pleased to announce that OGE Energy Corp. (OGE) has selected ISNetworld to enhance its current contractor and supplier management system. OGE will utilize ISNetworld to collect and verify contractor and supplier health, safety, environmental and procurement information.

Headquartered in Oklahoma City, OK, OGE Energy Corp. is the parent company of Oklahoma Gas and Electric Company, a regulated electric utility, and Enogex Holdings, LLC, a midstream natural gas pipeline business. OGE's values center around safety; the company advocates attitudes and actions that promote individual safety, health and success.

“Our bar for safety performance is set at the only place that should be acceptable, that is, to realize an incident and injury free workplace,” said Jean Leger, Vice President of Utility Operations at OGE. “To aid OGE in this endeavor, we have enlisted ISNetworld to help with managing contractor safety information. Our goal is safer, more efficient operations with reduced risk for your employees and ours.”

ISN Director of Energy, Brandi Surine, commented, “The addition of OGE is a big step in the expansion of our utilities and power generation client base. We look forward to assisting OGE, and its contractors and suppliers, with their overall commitment to a safe working environment.”

About ISN

ISN provides an online contractor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 42,000 contractors and 250 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors' self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isn.com.
