PSEG Selects ISNetwork for Contractor Management
ISN Expands in the Utilities/Power Generation Industry

DALLAS, Texas (June 6, 2011)—ISN is pleased to announce that PSEG has selected ISNetwork as its primary tool for contractor management. ISN will help PSEG collect and verify health, safety, environmental and procurement information for contractors that perform Construction, Vegetation Maintenance or Environmental Remediation services for PSEG.

PSEG is an integrated generation and energy services company, headquartered in Newark, N.J., and one of the ten largest electric companies in the United States. PSEG consists of the following four companies – Public Service Electric and Gas Company (PSE&G) PSEG Power, PSEG Energy Holding and PSEG Services Corporation.

Eric Svenson, VP - Policy and EH&S, PSEG, commented, “PSEG is committed to being a leader in regards to Health and Safety. We believe that safety is not just important on the job site, but is a way of life. Partnering with ISNetwork ensures that our contractors and employees are completing the due diligence needed to ensure a continued safe working environment.”

“ISN is looking forward to working with PSEG and its contractors,” said Jennifer Buckley, ISN Utilities/Power Generation Team Lead. “ISN is pleased to be a part of PSEG’s strong commitment to the health and safety of its employees and contractors.”

About ISN

ISN provides an online contractor management database, ISNetwork, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 32,000 contractors and 200 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors' self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isn.com.
