Pembina Pipeline Corporation Selects ISNetworld for Contractor Management ISN Expands Midstream Pipeline Client Base

CALGARY, Alberta (June 13, 2011) — ISN is pleased to announce that Pembina Pipeline Corporation has selected ISNetworld to effectively manage and streamline its contractor management process.

Pembina was founded in 1954 and has become well known as a transportation and service provider to western Canada's energy industry. With more than 8,500 kilometres of pipeline, reaching across Alberta and British Columbia, Pembina is focused on conventional pipeline, oil sands and heavy oil, midstream and marketing and gas services.

Pembina's commitment to safety is supported at all levels. Shawna Vossler Mattison, Manager Health, Safety and Environment, Pembina, noted the decision to use ISNetworld is in line with their company's dedication to the highest standards of safety. "ISN provides a tool to help Pembina mitigate risk with hiring contractors and will assist with our internal goal of safe operations," she stated.

"We are pleased to see Pembina join our client base in the midstream industry and look forward to working with the Pembina group," said Jennifer Buckley, ISN Midstream Team Lead.

"Given Pembina's strong commitment to safety, ISN is proud to join in their efforts to standardize contractor safety requirements across their operations," added ISN Senior Vice-President, Brian Callahan.

About ISN

ISN provides an online contractor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 32,000 contractors and 200 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors' self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isn.com.
