Strike Selects ISN for Subcontractor Management

ISN Expands Contractor/Operator Client Base

DALLAS, Texas (March 14, 2012) – ISN is pleased to announce that Strike, LLC (Strike) has selected ISNetworld to manage and streamline its subcontractor management process. Strike will utilize ISNetworld to collect and verify health, safety and procurement related information on its subcontractors.

Strike was founded with the goal of establishing a single-provider solution for companies with pipeline integrity, maintenance and new construction needs throughout the gulf coast and major regions of the United States. With more than 500 combined years of pipeline and facility experience, Strike provides the highest standards of quality, professionalism and safety in the industry.

Strike explained their decision to utilize ISN in their November 2011 letter to their required subcontractors, “We are excited to partner with ISN to enhance our subcontractor management process and achieve our goal of safe operations on the job site,” said Mitch Helfer, Strike’s Vice President of Environment, Health, and Safety.

Brandi Surine, Director of Energy at ISN stated, “We are proud to welcome Strike as a new Contractor/Operator and admire their commitment to the safety of their subcontractors. We look forward to a successful implementation.”

About ISN

ISN provides an online contractor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 39,000 contractors and 240 Owner Clients. Through its Review and Verification Services (RAVS), ISN’s subject matter experts review and verify contractors’ self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isnetworld.com.
