Yara Belle Plaine Selects ISNetworld for Contractor Management *ISN Expands in the Fertilizer Products Industry*

CALGARY, Alberta (June 1, 2011) – ISN is pleased to announce that Yara Belle Plaine (Yara) has selected ISNetworld as its contractor management solution. Yara joins the growing list of fertilizer products producers to utilize ISNetworld.

Yara operates outside of Belle Plaine, Saskatchewan and includes an ammonia plant, a nitric acid plant and a urea granulation plant. Yara Belle Plaine is home to the largest single line granulation plant in North America.

“With the addition of Yara, value is added to our current ISNetworld contractors in Saskatchewan. We look forward to helping Yara and its contractors achieve their goals,” said Brian Callahan, ISN Senior Vice President.

“Yara is committed to the safety of our contractors,” added Blair Doucet, Yara Belle Plaine Maintenance Manager. “We believe ISN will assist us in meeting our internal standardization and safety goals.”

“Yara shows a strong commitment to the health and safety of its employees and contractors,” said Adrienne Turner, Director of ISN Canada. “ISN is pleased to be a part of their ongoing efforts for safe operations.”

About ISN

ISN provides an online contractor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 32,000 contractors and over 200 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractors' self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isnetworld.com.
